

March 3, 2005

Dear Boris,

I just wanted to tell you how much fun our dinner guests had in Orlando last month. Your hypnotist show was thoroughly professional and absolutely hysterical. Each of those hypnotized had the best time and would do it again in a second. All of our international distributors and executives from the home office were thrilled. Even with our smaller group and many non-english speaking guests, your show was a great success. I was told it was the best dinner Tamron has ever had and they are worried about trying to top it at the next international gathering. Thanks for making my job of entertaining an international crowd so easy.

Sincerely,

Stacie Errera
